JOB SPECIFICATION AND DESCRIPTION

1.0. Introduction

Total Oil and Gas Company has the mandate to procure international technical and expertise labor to complement local and international personnel in various fields of specialization in relation to the company's functional areas. Total Oil and Gas have been finding and producing oil and gas around the world for over a century. Today, we have interests in exploration and production ventures in more than 39 countries and employ approximately 19,000 staff (not including contractors).

This is a technically challenging work environment characterized by a continuing need for research, the pursuit of new technology, and the adoption of new ways of working. It demands people who will thrive in a culture that encourages and rewards innovation, collaboration and the ability to learn from success as well as failure.
